Objective

Using my experience in software testing, including functional, regression and automation testing, to contribute to the delivery of robust and efficient software solutions while continuously growing as a QA Engineer and adding value to organizational goals.

Education

Tirumala Engineering College, Bachelore's in Information Technology April 2019 – May 2023

- CGPA: 6.80/10
- **Coursework:** Java Programming, Web Fundamentals, Software Testing

Sri Chaitanya Junior College, Secondary Education in MPC March 2017 – February 2019

- CGPA: 7.96/10
- **Coursework:** Mathematics and General Science

St. Joseph's High School, SSC in 10th Standard February 2017

- CGPA: 8.8/10

Experience

Associate Software Engineer, Nextrics Software Solutions May 2023 – Present

- Collaborated with development and product teams to define test requirements and create detailed test plans, ensuring 100% coverage of functional specifications.
- Designed, executed and maintained manual and automated test cases using Selenium, TestNG and Java, achieving a defect detection rate 98% before production release.
- Regression, integration and performance testing, reducing post-release defects by 35% and improving the stability of the product.
- Documented defects, prepared test reports and participated in defect triage meetings, ensuring 95% critical bugs were resolved within SLA.
- Using tools such as Jira, Git, and CI/CD pipelines to streamline testing workflows, reducing test execution time by 25%.

Projects

Personal Portfolio Website github.com

- Designed and developed a fully responsive personal portfolio website optimized for desktop and mobile devices.
- Integrated smooth animations, floating navigation bar, and hover effects for enhanced user interaction.
- Tools used: HTML, CSS and JavaScript, GitHub, Vercel

Portfolio.com

Technologies

Languages: C, Java, HTML, CSS and JavaScript

Tools: VS Code, Selenium WebDriver and TestNG

Build Tools: Maven

Version Control: Git, GitHub

Manual Testing: Functional Testing, Regression Testing

Certifications

Web Fundamentals - TryHackMe.com

February 2023

- Covered core concepts of HTTP, HTML, CSS, JavaScript, client-server architecture, and web vulnerabilities, enhancing skills in web application understanding, UI testing, and security validation.

Certificate.com

Pre Security - TryHackMe.com

January 2023

- Completed foundational training in networking, Linux/Windows operations, and web fundamentals, gaining essential knowledge for secure test automation and vulnerability awareness.

Certificate.com

CompTIA Pentest+ - TryHackMe.com

February 2023

- Got Hands-on exercises aligning to PenTest+ exam objectives and participated in practical exam preparation

Certificate.com

Additional Skills

- Strong communication and collaboration skills.
- Ability to meet tight deadlines and manage multiple tasks.
- Adaptability to new technologies and tools
- Effective conflict resolution skills.
